Healthcare Provider Course

The course is intended for workers in a healthcare setting.

GOT CPR?

Course Description: This course covers core material such as adult and pediatric CPR, two rescuer scenarios, use of bag valve mask, foreign body airway obstructions, AED, and barrier devices.

INTENDED AUDIENCE

Persons assigned to respond to emergencies in the workplace or community, as well as those who want to learn first aid, CPR, and AED skills. Some rescuers are required to take this course as part of their employer's efforts to comply with OSHA regulations, such as Doctors, nurses (RN-LVN-CNA), therapists, medical assistants, phlebotomists, and all those individuals who work in the medical field.

(818) 892-6141
(818) 334-8943

Heartsaver AED First Aid

This course is intended for child care workers, teachers, youth organizations, and coaches.

GOT CPR?

Course Description: The Heartsaver AED / First Aid course teaches CPR, AED use and relief of choking for adults and children. Students will also learn how to manage illnesses and injuries in the first few minutes before professional help arrives. The environmental emergencies section is optional.

INTENDED AUDIENCE

Persons assigned to respond to emergencies in the workplace or community, as well as those who want to learn first aid, CPR, and AED skills. Some rescuers are required to take this course such as, corporate employees, security guards, teachers, airline personnel, foster parents, lifeguards, and other individuals who might need first aid training.

Heartsaver AED

The Heartsaver AED Course (Automated External Defibrillator) teaches the use of this device to shock the heart into treatable rhythm.

GOT CPR?

Course Description: This course teaches CPR, AED use and relief of choking for adults, children and infants. It also includes the use of barrier devices for victims of all ages. Hands on skills are performed in a low stress, watch and demonstrate environment.

INTENDED AUDIENCE

Lay rescuers, such as employees in the workplace, care givers, baby sitters, firefighters, police, security personnel, family of patients at high risk for sudden cardiac death, and other individuals who might need a CPR training.
